PROFILE

Freelance Shopify developer in Paris with 8 years of experience. I've designed **50+ Shopify themes sold over 1,000 times** and built **100+ stores** that help e-commerce brands sell more. I cover the full stack of a Shopify business — theme, storefront, backend, integrations — and for the last two years I've specialized in AI agents and automation with n8n and LangGraph, plus AI-generated product photos, videos and UGC.

Experience

Freelance Shopify Developer

2017 – Present

Self-employed · Paris / Remote

- Designed and shipped **50+ Shopify themes** — sold **1,000+ copies** to merchants worldwide.
- Built and launched **100+ Shopify stores** for brands in fashion, beauty, food & beverage, jewelry, eyewear and homeware.
- Run the **backend of Shopify stores**: apps and integrations, Stripe payments, inventory and order workflows, multi-store setups.
- Speed up storefronts and lift conversion; support store owners long-term with reliable maintenance.

AI Agents & Automation

2024 – Present

Freelance · integrated into client stores and businesses

- Build **AI agents and chatbots** with n8n and LangGraph for websites, Shopify stores and business operations.
- Automate order, marketing and support workflows end-to-end, saving clients hours every week.
- Produce **AI-generated product photos, videos and UGC-style content** for brands.
